

# Jaunette Jurassic Spread

## Informations

Preparation : **15 min.**  
Cooking time : **10 min.**

## Ingredients

### Ratio to respect

- 1/3 Jaunette Jurassic cheese scraps
- 2/3 Crème fraîche 30% Isigny

## Preparation steps

**Do you have from Jaunette Jurassic cheese scraps left?**

Depending on the amount of cheese you have left, prepare a delicious spread by mixing 2/3 cream and 1/3 cheese.

1. Mix the cheese and cream and heat it for about 10 minutes at a maximum of 60°C.
2. The ratio of cream to cheese can be adjusted according to the desired texture.

? **Tip:** This spread can, for example, be used to make a Quiche Lorraine by adding grilled bacon, walnuts, and fried

onions, or in **a more surprising sweet version** by mixing Valrhona Raspberry Inspiration chocolate beans.

**? Guaranteed success !**
